PCN (Product Change Notification) reference: **2021/19**

Subject: **Change to plating finish on spring terminal of JR series and JRL series**

Dear Customer,

This notification letter is to advise you of a change in the plating finish used on the Knowles Voltronics JR and JRL series half turn, surface mount trimmer capacitors.

The new finish will be tin over nickel and will replace tin/copper over nickel. There will be no change to the nickel under layer. This change will bring the plating finish in line with that already used on the JZ series. There is no change to form, fit or function

Should samples be required these may be available on a by request basis, please contact customer service in this instance. Samples where provided will be on cut tape.

If you require further information, please contact Maxmega Electronics Pte Ltd email maxsales@maxmega.com.

Yours sincerely,

Maxmega Electronics Pte Ltd

PCN Details

PCN reference: 2021/19

PCN Issue Date: TBC

Product: Voltronics Half Turn Trimmer Capacitors.
JR030, JR030HV, JR060, JR060HV, JR100, JR100HV, JR150, JR150HV,
JR200, JR200HV, JR300, JR300HV, JR400, JR400HV, JR500, JR500HV,
JRL100, JRL200, JRL250

Change Description: Change to plating finish

Reasons for Change: Supplier discontinuation of previous finish

Changes to Form,
Fit or Function: No change to component form, fit or function.

Changes to Quality
or Reliability: None.

Changes to Voltronics
Part Numbers: None.

Proposed First Ship Date: Phase in from 1st October 2021

Qualification Results: Available on request

Are Samples Available? Limited samples available on request
